Internship Opportunity City of Merced WWTF Laboratory

Project: Analytical Testing and Data Base

Assist in setting up and performing Analytical tests in Waste Water

and Drinking Water Laboratory. Assist in creating new and

improving existing Laboratory database.

Skills/ Interests: Suitable for students in Chemistry, Biology, Microbiology, Physics,

mathematics and related fields. Must be computer-literate in Macro creation, Microsoft Office suite; anticipate that work will be done in

Word, Excel and Access.

Workplace/

Supervision: Work will be performed at various locations in the field and at the

Wastewater Treatment Facility located at 10260 Gove Road. Workstation, computer and other necessary equipment are provided. Other work locations may be arranged with the

Supervisor.

Hours: Expect about a minimum of 8 hours per week for approximately 12

weeks. Schedule is flexible and can be adapted to the academic

schedule by arrangement with supervisor.

Compensation: May be arranged for either University credit as appropriate, or

hourly rate of \$14.00 as temporary employee (non-benefitted

position)
