

AUTHORIZED SECURITY COMPANIES

The City of Merced requires that approved private security guards be provided for all celebrated functions held at facilities where alcohol is being served or sold and police approval or permits are required.

The number of security guards required and the number of hours worked will generally be determined by the building capacity and the type of function or event that is being held.

If alcohol is being served, the applicant must provide a copy of the private security contract before police clearance will be given. Alcohol is not allowed to be served or sold at a Quinceanera, an event where the guest of honor is a minor.

If alcohol is being sold, the applicant must provide a copy of the private security contract prior to a "No Objections" letter addressed to the Department of Alcohol Beverage Control is issued. Admissions will be restricted to persons 21 years of age and over.
