

# Help Draw Merced's Future:

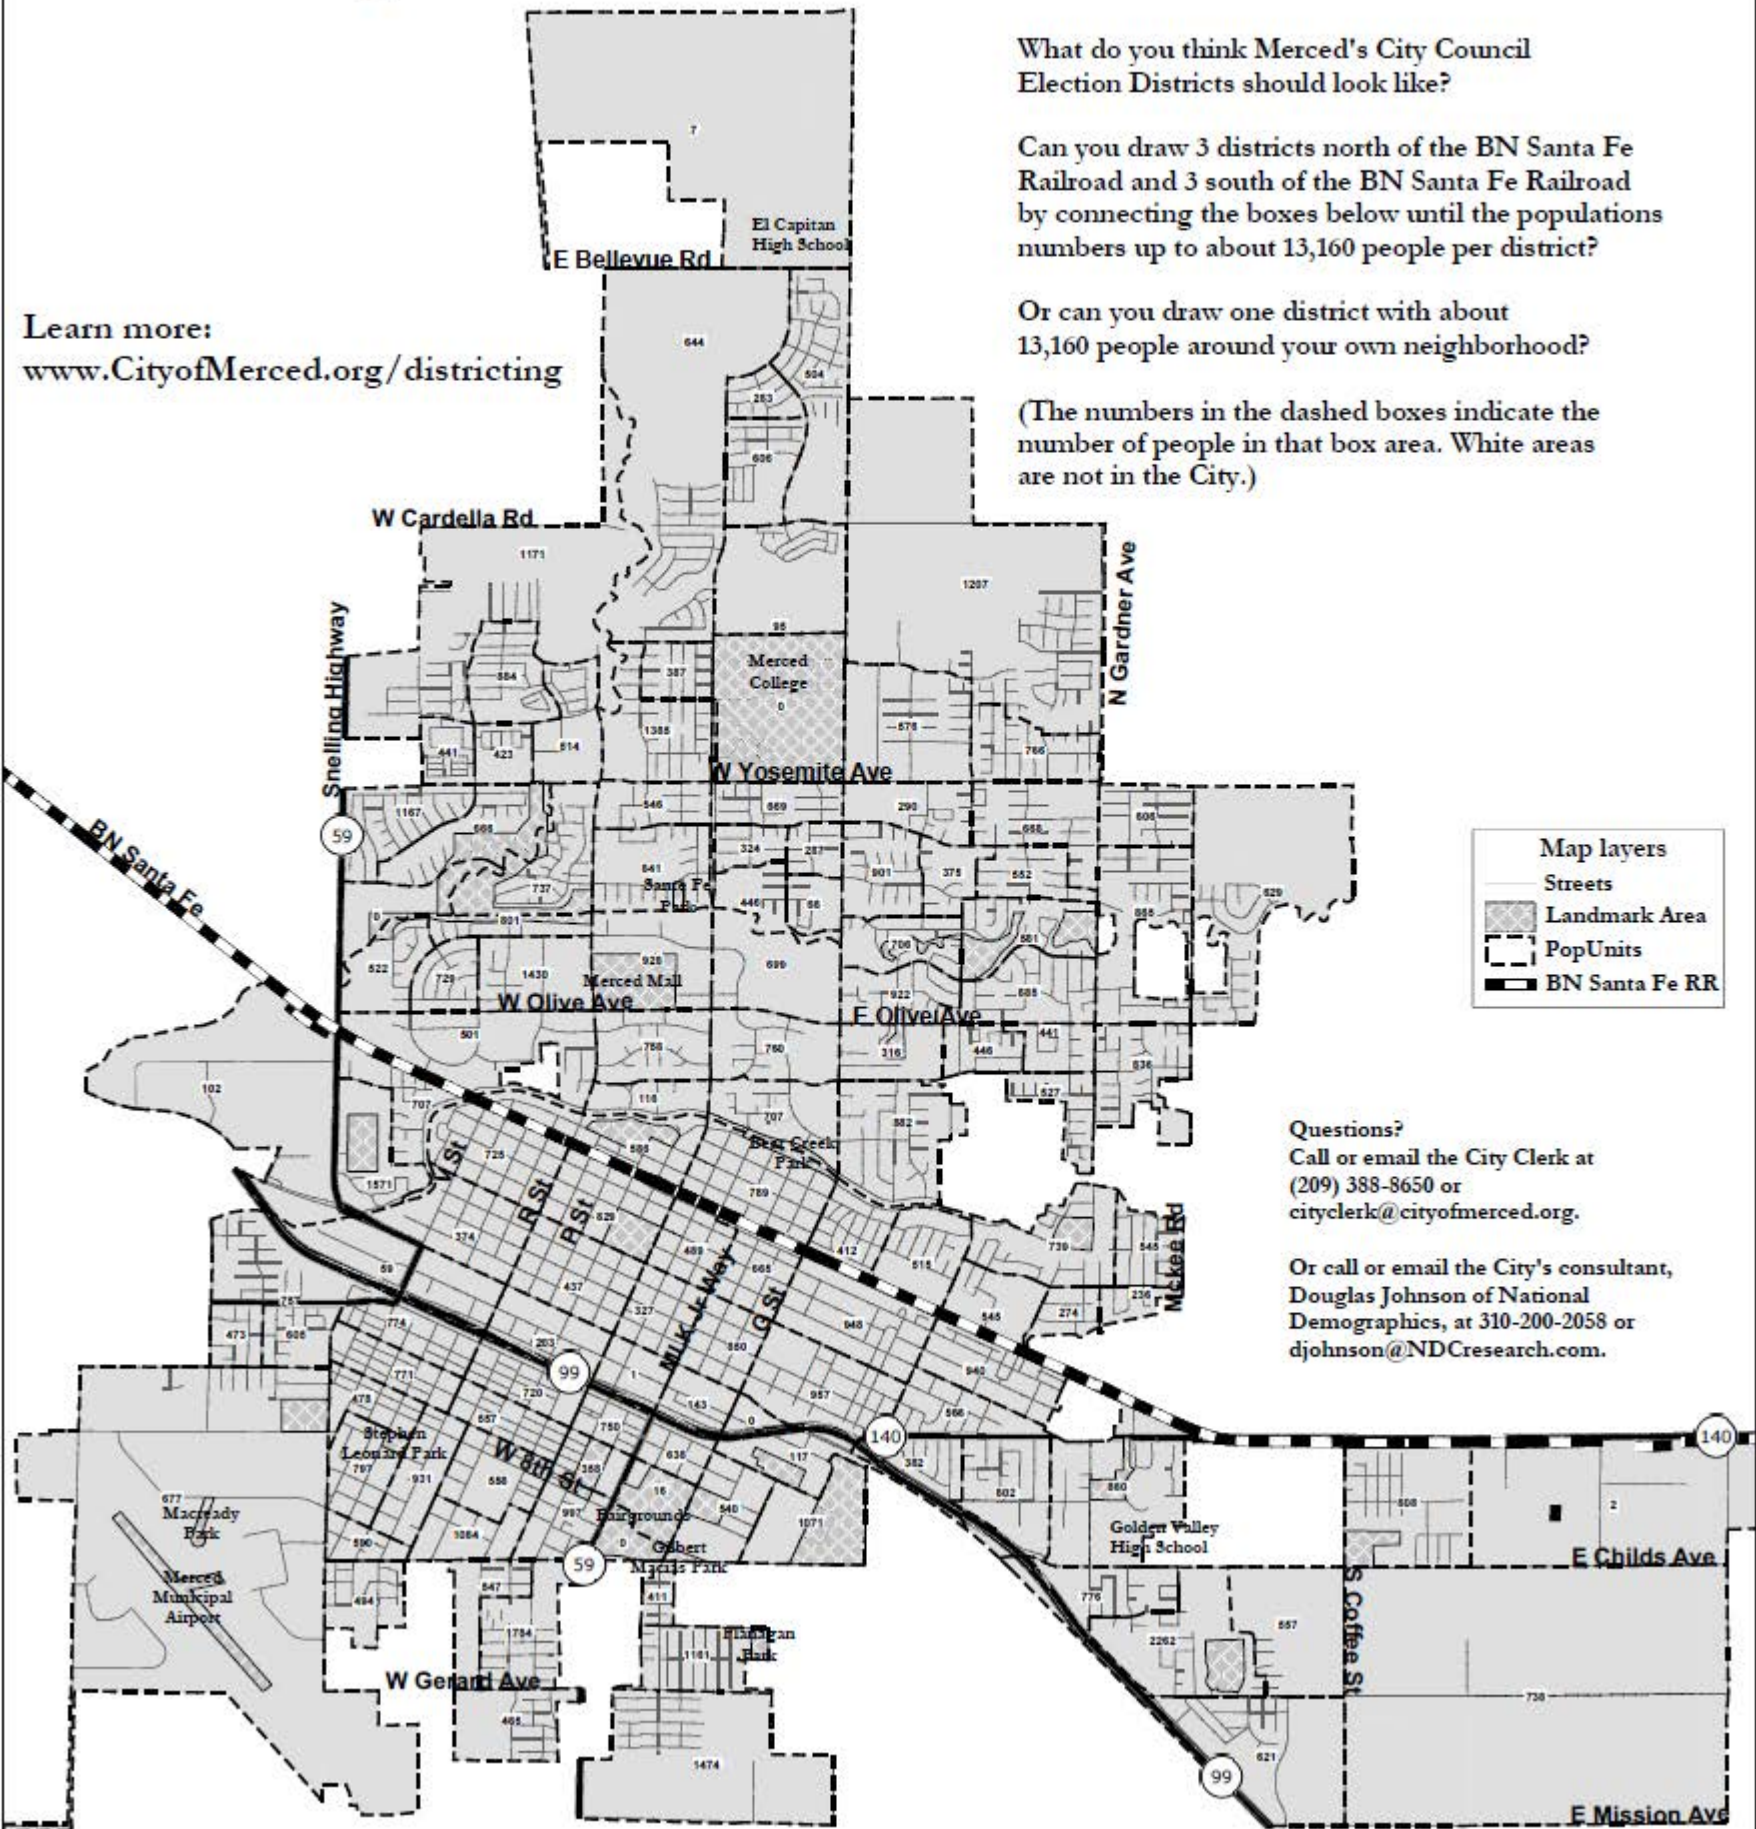

What do you think Merced's City Council Election Districts should look like?

Can you draw 3 districts north of the BN Santa Fe Railroad and 3 south of the BN Santa Fe Railroad by connecting the boxes below until the populations up to about 13,160 people per district?

Or can you draw one district with about 13,160 people around your own neighborhood?

(The numbers in the dashed boxes indicate the number of people in that box area. White areas are not in the City.)
