The City has recently completed the first comprehensive update of the Merced Zoning Ordinance since its adoption in the early 1960's. It involved a complete redesign, update, and modernization in order to make it easier to use and understand for the general public and to provide specific guidance to developers, making the development process simpler and faster. The goal was to facilitate the City's overall growth and development and enhance the community's overall appearance, access to services, and economic health.

At this workshop, participants will receive an overview of the Public Review Draft of the Zoning Ordinance (released in September 2015 and available for download at [https://www.cityofmerced.org/depts/cd/planning/zoning\\_ordinance\\_update.asp](https://www.cityofmerced.org/depts/cd/planning/zoning_ordinance_update.asp)) and will have an opportunity to provide comments, prior to public hearings to consider adoption later this Summer.
