CITY OF MERCED
FIRE HYDRANT USE APPLICATION AND PERMIT

Fire hydrants are designed for use in fighting fires; however, when water is not available from any other source, temporary service may be provided from a fire hydrant as provided in the Merced City Code Section 15.36.090

NAME OF FIRM __________________________________________ ADDRESS __________________________ PHONE __________________________

HYDRANT LOCATION __________________________________ NO. __________________________

NATURE OF USE _________________________________________

APPROXIMATE AMOUNT __________________________________ GAL. __________________________

LENGTH OF TRENCH ___________________________________ L.F. __________________________

APPROXIMATE DATE (s) OF USE (30 day max.) ____________________________________________

Signature of Applicant __________________________ Date __________________________

Permission to use water from the City’s water system is hereby granted, subject to the following conditions:

1. Hydrant shall only be operated with an approved hydrant wrench, approved reduced pressure principle back flow prevention device assembly and water meter (in accordance with W-35 and W-36).

2. Fittings shall be examined and approved by the Fire Department prior to connection to the hydrant.

3. The charge indicated below shall be paid prior to the use of any water.

4. When the hydrant is not in actual use, the hydrant shall be turned off, the hose removed, and the nozzle cap replaced.

5. This permit (or a photocopy) shall be on the job site at all times the hydrant is in use.

6. This permit is valid only for Hydrant No. __________ from __________ through __________.

7. Applicant shall be responsible for all cost incurred if the hydrant is damaged, including repair of the hydrant and any property damage that can be attributed to the hydrant damage.

FAILURE TO COMPLY WITH ANY OF THESE CONDITIONS SHALL CONSTITUTE GROUND FOR CANCELLATION OF THIS PERMIT.

Fee: $ ______________ Date Paid ______________ Receipt Number ______________

(Minimum Charge for failure to obtain a permit in advance of use shall be $100.00 plus cost of repairing any damage to fire hydrant and water system and facilities by such use, if any.)
