Local Transportation Funds are derived from 1/4 cent of the 7-1/4 cents retail sales tax collected statewide. The 1/4 cent is returned by the State Board of Equalization to each county according to the amount of tax collected in that county. Payments from the Local Transportation Fund are made by the county auditor but only in accordance with written allocation instructions issued in compliance with the Act by the county's transportation planning agency. Local Transportation Fund monies must first be used for all reasonable unmet transit needs and then may also be used for street and road costs.
